

What will your project involve?

Tell us what you plan to do...

Remember, this funding is intended to help you try something that you've not done before. It can't be used to support activities that already happen each year in your area or to cover the cost of resources that have already been purchased or events that have already taken place.

Where will your project take place?

Does your project require one or more venues? Have you received any quotes so far?

Girlguiding Scotland operates a 'Netherurd First' policy which means that we ask you to explore whether it would be possible for your project to take place at Netherurd. Have you considered holding your project at Netherurd?

(Please x the relevant answer)

No, our project does not require a venue such as Netherurd

No, it would not be practical to hold our project at Netherurd

Please explain why if this is the case

No, we didn't consider Netherurd for this project as we've been there recently and want to try somewhere new

Yes, we explored this option but Netherurd was unavailable

Yes, we explored this option but went with an alternative venue because...

Please explain why if this is the case

Yes, our project will take place at Netherurd

Who will help you to deliver your project?

How many volunteers are needed to deliver your project? What skills will they need to have? (We don't need you to provide names but it is helpful to think ahead to what support you will need and how you will recruit that help in time to deliver your project).

How will this funding enable you to grow and develop guiding in your district, division or county?

*Why is this funding needed? Are you responding to a gap or problem you have identified?
Would your project happen without this funding? Will this funding make your activity more inclusive?*

What do you hope to achieve as a result of your project?

*What difference do you hope this funding will make to girls and young women in your area?
Please think about measureable targets (e.g. X new volunteers will attend our training event or x new units will open within 6 months of our recruitment drive or X% of girls attending our camp will move onto the next section within the next 12 months or X% of adults reported that their confidence had increased as a result of your activity).*

**You will need to evaluate your project in order to understand whether you have met your targets.
How will you evaluate your project?**

E.g. will you use questionnaires, surveys or photo diaries? Will participants evaluate your activity at before and immediately after your activity? Will you continue to monitor participants after the activity has taken place?

Please think about how GO data can help you evidence impact.

How many girls and adults do you aim to reach through your project?

Existing young members	
Young members already on the waiting list	
Prospective young members (not yet on GO)	
Existing young leaders	
Existing adult volunteers	
Prospective young leaders/adult volunteers (on GO awaiting recruitment checks)	
Prospective young leaders/adult volunteers (not yet on GO)	

Does your project involve any of the following? (Please x the relevant answer)

Establishing guiding opportunities for girls where there is no provision	
Expanding guiding opportunities for girls where there is insufficient provision	
Working with deprived communities	
Working with rural communities	
Supporting young member retention/ transition to the next section	
Offering flexible guiding opportunities	
Adult volunteer recruitment
